THIS IS YOUR MBA, DESIGNED FOR OUR TIMES.

“ Truly agile, successful businesses demonstrate collaboration that breaks down rigid operational structures. Our MBA programmes mirror the interconnected reality of modern organisations to cultivate a big-picture, cross-functional mindset essential for great leadership.

Through an interconnected curriculum, you'll explore how diverse business systems interact and impact one another, both in theory and hands-on practice. By breaking down boundaries between disciplines, you will gain a more holistic understanding of business ecosystems.

This innovative, integrated learning approach equips you with the agility to navigate complexity, identify synergies, and drive transformative change - the hallmarks of visionary leadership in today's rapidly evolving landscape.

DR JANE ELLIS-BRUSH
DIRECTOR OF TEACHING
THE BATH MBA

The Bath MBA offers a practical, innovative and collaborative approach to learning. Just like in the real world, the best way to learn is by doing. Early in the programme, you'll engage with real businesses, getting hands-on experience.

In business, great leadership relies on great teamwork. That's why collaboration is at the heart of the Bath MBA. By sharing skills, knowledge and ambitions, you'll develop the expertise to unlock your potential.

Real-world business shapes our teaching too. We integrate core topics, reflecting how organisations operate. You'll gain a broad skill set and the diverse experience essential for modern leaders.

AT A GLANCE

Embarking on an MBA is a strategic decision that will take your career to new heights. It's more than academics; it's taking what you learn in the classroom and making it real. We give you practical, professional experiences and skills to expand your CV and open new doors.

Just a few minutes from campus lies the beautiful city of Bath, surrounded by the rolling green hills of the Somerset countryside. Renowned for its natural hot springs and Georgian architecture, Bath is also a thriving place to live, learn, and work.

This small yet bustling city offers year-round cultural and social activities, from international sporting events, festivals and concerts to museums and galleries. Bath is a growing hub for innovation and creativity making it an ideal location for tomorrow's business leaders and entrepreneurs alike.

Bath's prime location ensures an easy commute to most major cities with London just 80 minutes away by train.

Our neighbouring city of Bristol is one of the UK's leading professional hubs and home to a mix of global tech firms, thriving creative industries and a strong financial services sector. Just 15 minutes by train, it boasts its own international airport serving over 100 destinations and is less than 20 miles from Bath. Many of our MBA graduates take up professional roles in Bristol, combining the best of big-city life with the vibrancy and culture of Bath.

GREAT LEADERS SEE THE BIGGER PICTURE. WE SHOW YOU HOW.

We've designed our MBA programmes to keep you ahead. You'll gain the skills to tackle today's challenges and explore contemporary topics vital for the success of any business. Experience a programme that's innovative and bold, designed for leaders of the future. This is your MBA, designed for our times.

But your journey with us will be about more than just business success. Our focus on personal development helps create well-rounded leaders that are agile to change, with the confidence to inspire others.

Experience an MBA that mirrors real-world collaboration and has practical business experiences at its heart. Our teaching approach reflects how modern organisations work, helping you prepare for whatever challenges lie ahead.

“The MBA is not a silo... everything is interlinked, everything is targeted and planned in a way that leads to our growth directly. The programme is highly interactive; the professors all collaborate to bring depth and variety to their teaching. It's growth that you won't even notice is happening to you. It's amazing.

SADIA NUSRA SIDDIQUE
MBA ALUMNA

INNOVATIVE TEACHING

Real-world business shapes our teaching. We teach core topics together, reflecting how organisations operate. You'll gain a broad skill set and the diverse experience essential for modern leaders.

PRACTICAL BUSINESS EXPERIENCE

Theory can only take you so far. On the Bath MBA you'll learn by doing. Our focus on practice-based learning means you'll interact with real business from early on in the programme. Bring your learning to life through real-world case studies, guest lectures, company visits and live consultancy projects.

CAREER FOCUSED

Whether you know what path you want to take or not, we know you want to grow as a leader. We can help you get there with our tailored professional development content in the Business Career Accelerator module. This is so important to your future we've made it a core part of the Bath MBA. You'll:

- ▶ enhance your essential business skills
- ▶ work with expert coaches and mentors
- ▶ explore post-MBA options with our dedicated MBA Careers Team

GIVING YOU THE TOOLS YOU NEED TO DRIVE YOUR CAREER FORWARD.

INTEGRATED MODULES

Our core integrated modules combine business subject areas. We teach these together to reflect how modern organisations work. You'll be able to take what you learn in the classroom and apply it to real business situations.

With our range of core and optional modules, you'll explore contemporary topics vital to business success. You'll also build the insight and adaptability to navigate whatever comes next.

Explore sustainability, data-driven decision making, disruptive technology and more. This is your MBA, designed for our times.

LEARNING TEAMS

Enhance your MBA with collaborative learning. When you start your MBA, you'll join a Learning Team with other students. Together, you will be colleagues for study and team-based assessments.

Our MBA students come from a range of backgrounds and sectors. You'll share:

- ▶ your individual experiences
- ▶ information about your culture and backgrounds
- ▶ thoughts on topical leadership challenges
- ▶ perspectives on international markets and business models

Over the year you'll work across Learning Teams. This means you'll be able to work with many different people.

ASSESSMENT

You'll experience a variety of individual and team-based assessments designed to support your development and reflect the practical, applied nature of the MBA. These assessments are both formative (to support learning) and summative (to evaluate progress), and may include:

- ▶ written essays and reports
- ▶ case study analyses
- ▶ in-person and video presentations
- ▶ scenario planning exercises
- ▶ reflective portfolios

These methods are designed to assess your understanding of subject-specific content, your ability to integrate learning across modules, apply theory in practice and reflect critically on your personal and professional development.

“AS SOMEONE WHO HAD NEVER EXPERIENCED CONSULTING BEFORE, I’VE FOUND WORKING IN OUR TEAM INCREDIBLY VALUABLE.”

The Bath MBA has been a great learning experience. The Multi-Project Suite, with its consulting and change in action components, has been eye-opening. As someone who had never experienced consulting before, I've found working in our team incredibly valuable. You learn a lot about yourself, about conflict resolution, building team spirit as well as about uplifting others. All skills that you need as a senior manager.

Looking at an organisation through the lens of change is something that I have never thought of before. The process of attacking the why and how before the what has been unique and insightful. It's taught me how to improve organisational health beyond just focusing on profits, which is something quite unique that I haven't learned in my previous job.

This MBA has helped me develop holistically. I've become a better manager, a better worker, a better individual, not only in the workspace but in the personal space as well. The Bath community is incredibly supportive; everyone here is there to build you up and push you to do your best.

MULTI-PROJECT SUITE

With our distinctive Multi-Project Suite, you'll complete four different projects instead of doing a final dissertation focusing on one topic.

The Multi-Project Suite lets you work in teams with real clients on live business issues to develop your consulting skills. You'll work on a range of business problems with a variety of organisations.

You will:

- ▶ deliver real projects to real clients
- ▶ improve your research and consultancy skills
- ▶ get exposure to different types and sizes of organisation
- ▶ have real-world project work to add to your CV/résumé

SOCIAL ACTION PROJECT

Work on a challenge with a UK or international not for profit organisation.

CONSULTING AND CHANGE MANAGEMENT PROJECT

Help solve a real business problem. Explore different aspects of a complex change initiative and build valuable project and consulting skills.

ENTREPRENEURSHIP PROJECT

Work on a new business idea which you'll pitch to a panel of investors and entrepreneurs.

CONSOLIDATING PROJECT

Work in a group, most likely with a corporate client, on a major business challenge. Alternatively, do an individual project on a business or management topic of your choice.

SOME OF THE BUSINESSES WE WORK WITH:

- ▶ AECOM
- ▶ CARNALL FARRAR
- ▶ IBM
- ▶ JVAT
- ▶ LLOYDS BANKING GROUP
- ▶ NHS
- ▶ QUORN FOODS
- ▶ ROTORK
- ▶ HILTI
- ▶ WESSEX WATER

SOCIAL ACTION PROJECT

Your MBA kicks off with a unique challenge: consulting for a third-sector organisation. You'll dive into the non-profit world, putting theory into practice early in the programme. This project tests your teamwork and problem-solving skills in a real-world setting.

Expect to be pushed out of your comfort zone. You'll face complex social issues head-on, developing a broader business perspective. This isn't just coursework - your efforts could significantly impact a community. It's a chance to make a difference while getting to know more about your peers and honing your leadership abilities.

“Being able to work with clients on live issues gives a better exposure in applying the concepts taught in the classroom. This is the best part of the Multi-Project Suite. It is very practical and real.”

PREETHI RAMMOHAN
MBA ALUMNA

CONSULTING AND CHANGE MANAGEMENT PROJECT

Tackle a real company's change initiative head-on. You'll dissect complex problems, analysing them from multiple angles. This project pushes you to apply classroom theories to complex, real-world situations. You'll learn to navigate organisational dynamics and develop practical solutions.

Working on this project reveals your adaptability and resilience. You'll discover how you handle ambiguity and pressure. Team interactions will highlight your leadership style and collaboration skills. Expect to refine your approach to problem-solving and gain confidence in your consulting abilities.

“The Bath MBA stood out to me for its diverse and practical modules, which were perfect for someone new to the business world. The programme's flexibility allowed me to explore various facets of business, helping me discover where my strengths and passions intersect.”

JOY KANCHANASEVEE
MBA ALUMNA

ENTREPRENEURSHIP PROJECT

Step into an entrepreneur's shoes. You'll develop a business idea from scratch, creating a comprehensive plan. The project culminates in pitching to real investors and entrepreneurs. This experience tests your creativity, market understanding, and ability to sell a vision.

Throughout this process, you'll uncover your risk tolerance and decision-making style. You might find hidden strengths or interests in areas like financial analysis or marketing strategy. The pressure of the pitch helps you to grow as a skilled communicator. You'll also learn how you handle feedback and iterate on ideas – crucial skills for any business leader.

“An MBA can be a valuable asset to help accelerate your career and gain a greater depth of business knowledge. It's a unique experience that allows you to connect with people from your industry and others.

CRYSTAL VANIA CLEMENT
MBA ALUMNA

CONSOLIDATING PROJECT

Choose between two challenging options for your final project. The group option involves solving a major issue for most likely a corporate client. You'll work on a significant business problem, delivering actionable solutions. This tests your ability to create value in a real business context.

The individual option lets you dive deep into a business or management topic of your choice. This self-directed study reveals your ability to manage a large-scale project independently.

Both choices push you to embrace everything you've learned on the MBA. You'll discover your preferred working style and how you approach complex, open-ended business challenges.

“The MBA helped me to adjust the way I think. I now relate real problems to models I am familiar with. The most important thing is that now I know what business solutions to apply.

STAMATIS FOTEINOIANNPOULOS
MBA ALUMNUS

OPTIONAL MODULES

Part of the MBA is dedicated to optional modules, letting you personalise your MBA to fit your own interests and career aspirations.

After completing your core studies, you'll pick three optional modules. These will allow you to expand your learning and explore more content in areas which are important to you, helping you to make the MBA your own.

Availability of modules is subject to constraints such as staff availability, minimum and maximum group sizes and timetabling factors, as well as a student's ability to meet any pre-requisite rules.

“ I wanted to pursue an MBA programme with academic rigour and a focus on entrepreneurship and sustainability. The Bath MBA surpassed my expectations. The programme gave me new people management and leadership skills. With the successful completion of each module, I had a sense that I was expanding my knowledge base. I felt that the curriculum was thoughtfully paced, ensuring that concepts were introduced at precisely the right time for students.

“MY ADVICE TO ANYONE CONSIDERING AN MBA? THE TIME IS NOW, GO FOR IT!

The Bath MBA has been an eye-opening experience. The content has been delivered in a thought-provoking way that's relevant in today's world. I've found the modules to be engaging, delving into important issues that are crucial for modern business leaders.

I wanted to challenge myself to do something that seemed impossible but that would also help me to grow personally and professionally. I am a firm believer that people only experience growth when and if they challenge themselves and step outside their comfort zones. I knew that I needed to get greater international exposure and to meet people with different perspectives and experiences.

I specifically chose the Bath MBA because of two key factors. The first was the Multi-Project Suite. From my perspective, being able to solve real-life problems for real companies is a great value-add and an exciting learning experience. Secondly, I was attracted to the small class size. I felt it allowed me to connect with my cohort and to build meaningful lifelong connections.

I initially thought I just wanted to gain some professional development and leadership tools but I've gotten way more than just that. The MBA has opened my mind to endless possibilities about where I want to take my career. I understand the different facets of business even more and I feel equipped to be able to tackle various problems in the business world. My advice to anyone considering an MBA? The time is now, go for it! It's an extremely stretching and somewhat hectic experience, but it's also extremely rewarding and brings so much growth.

NORMA MAGOMO
MBA ALUMNA

“IT’S BEEN AN OPPORTUNITY TO PAUSE, TAKE STOCK OF MY CAREER AND WHERE I WANT TO GO NEXT

For me, the main attraction of the Bath MBA was the Multi-Project Suite. It gave me a chance to experience a broad range of business areas and was a great learning opportunity. It forces you to experience all aspects of the business lifecycle, from start up to growth stage through to transformation. It prevents you from hiding in your comfort zone and gives you the chance to learn new skills, not just rely on your prior knowledge.

Coming from a 12-year career in the British Army with diplomatic postings in India and the Middle East, it was very exciting to join a multinational cohort and immerse myself in a new environment. The peer-to-peer learning has been invaluable. The opportunity to work with major multinational companies during projects and visit them on-site added a practical dimension to our learning that was truly eye-opening.

The MBA has given me the broad knowledge I wanted, giving me an oversight of multiple business areas and an understanding of business of which I was previously unaware. It has been an excellent opportunity to pause and take stock of not only my career to date, but also where I want to go next. The qualification by itself will not secure you a job, but coupled with previous experience and hard work can be an excellent pathway to a more senior job, or a new career.

Our MBA is not just a pathway to career advancement, but a gateway to meaningful, responsible leadership in the business world. We empower you to become an ethical leader who can inspire positive change and create a better tomorrow.

NEW UNDERSTANDING FOR NEW TIMES

In today's rapidly evolving business landscape, adaptability and foresight are crucial competitive advantages. The Bath MBA equips you with the skills and mindset to tackle technological disruption whilst preparing you for emerging industry trends.

Beyond core business fundamentals, we integrate cutting-edge modules on topics like AI and machine learning, digital transformation and scenario planning. You'll gain hands-on experience with the latest tools and frameworks, empowering you to drive your organisation's innovation agenda.

“The MBA environment has pushed me to think about who I am, what makes me special, and how I can use that to contribute to the group and to the future of business.”

LEARN FROM OUR LEADING ACADEMICS AND INDUSTRY PARTNERS

Learning should be as dynamic as the business world itself. That's why we've designed our MBA programme to blend traditional instruction with immersive, future-focused learning experiences.

As part of your MBA, you'll have access to specialised workshops, guest lectures, and co-creation sessions that connect you directly with the innovators shaping the future of business. This access to the latest tools, trends and best practices will give you a competitive edge.

“IF YOU'RE READY FOR THE CHALLENGES AHEAD, IT WILL MAKE YOU A BETTER PERSON IN EVERY WAY.”

The Bath MBA has been an incredible journey. I've seen a difference in myself since day one, improving more than I thought possible. The programme is intense, both time-wise and content-wise. You need to make sacrifices in your lifestyle and grab new ones. Time management becomes crucial as you balance personal and professional tasks.

What makes this experience exceptional is the combination of brilliant classmates and insightful lectures. You meet people who help you develop because you learn from their experiences and share your own. The MBA Student Experience Officer has been invaluable, offering assistance whenever needed. Knowing there's always someone there if I need support gives me confidence and peace of mind, especially as I've moved to a new country and faced personal challenges alongside the workload.

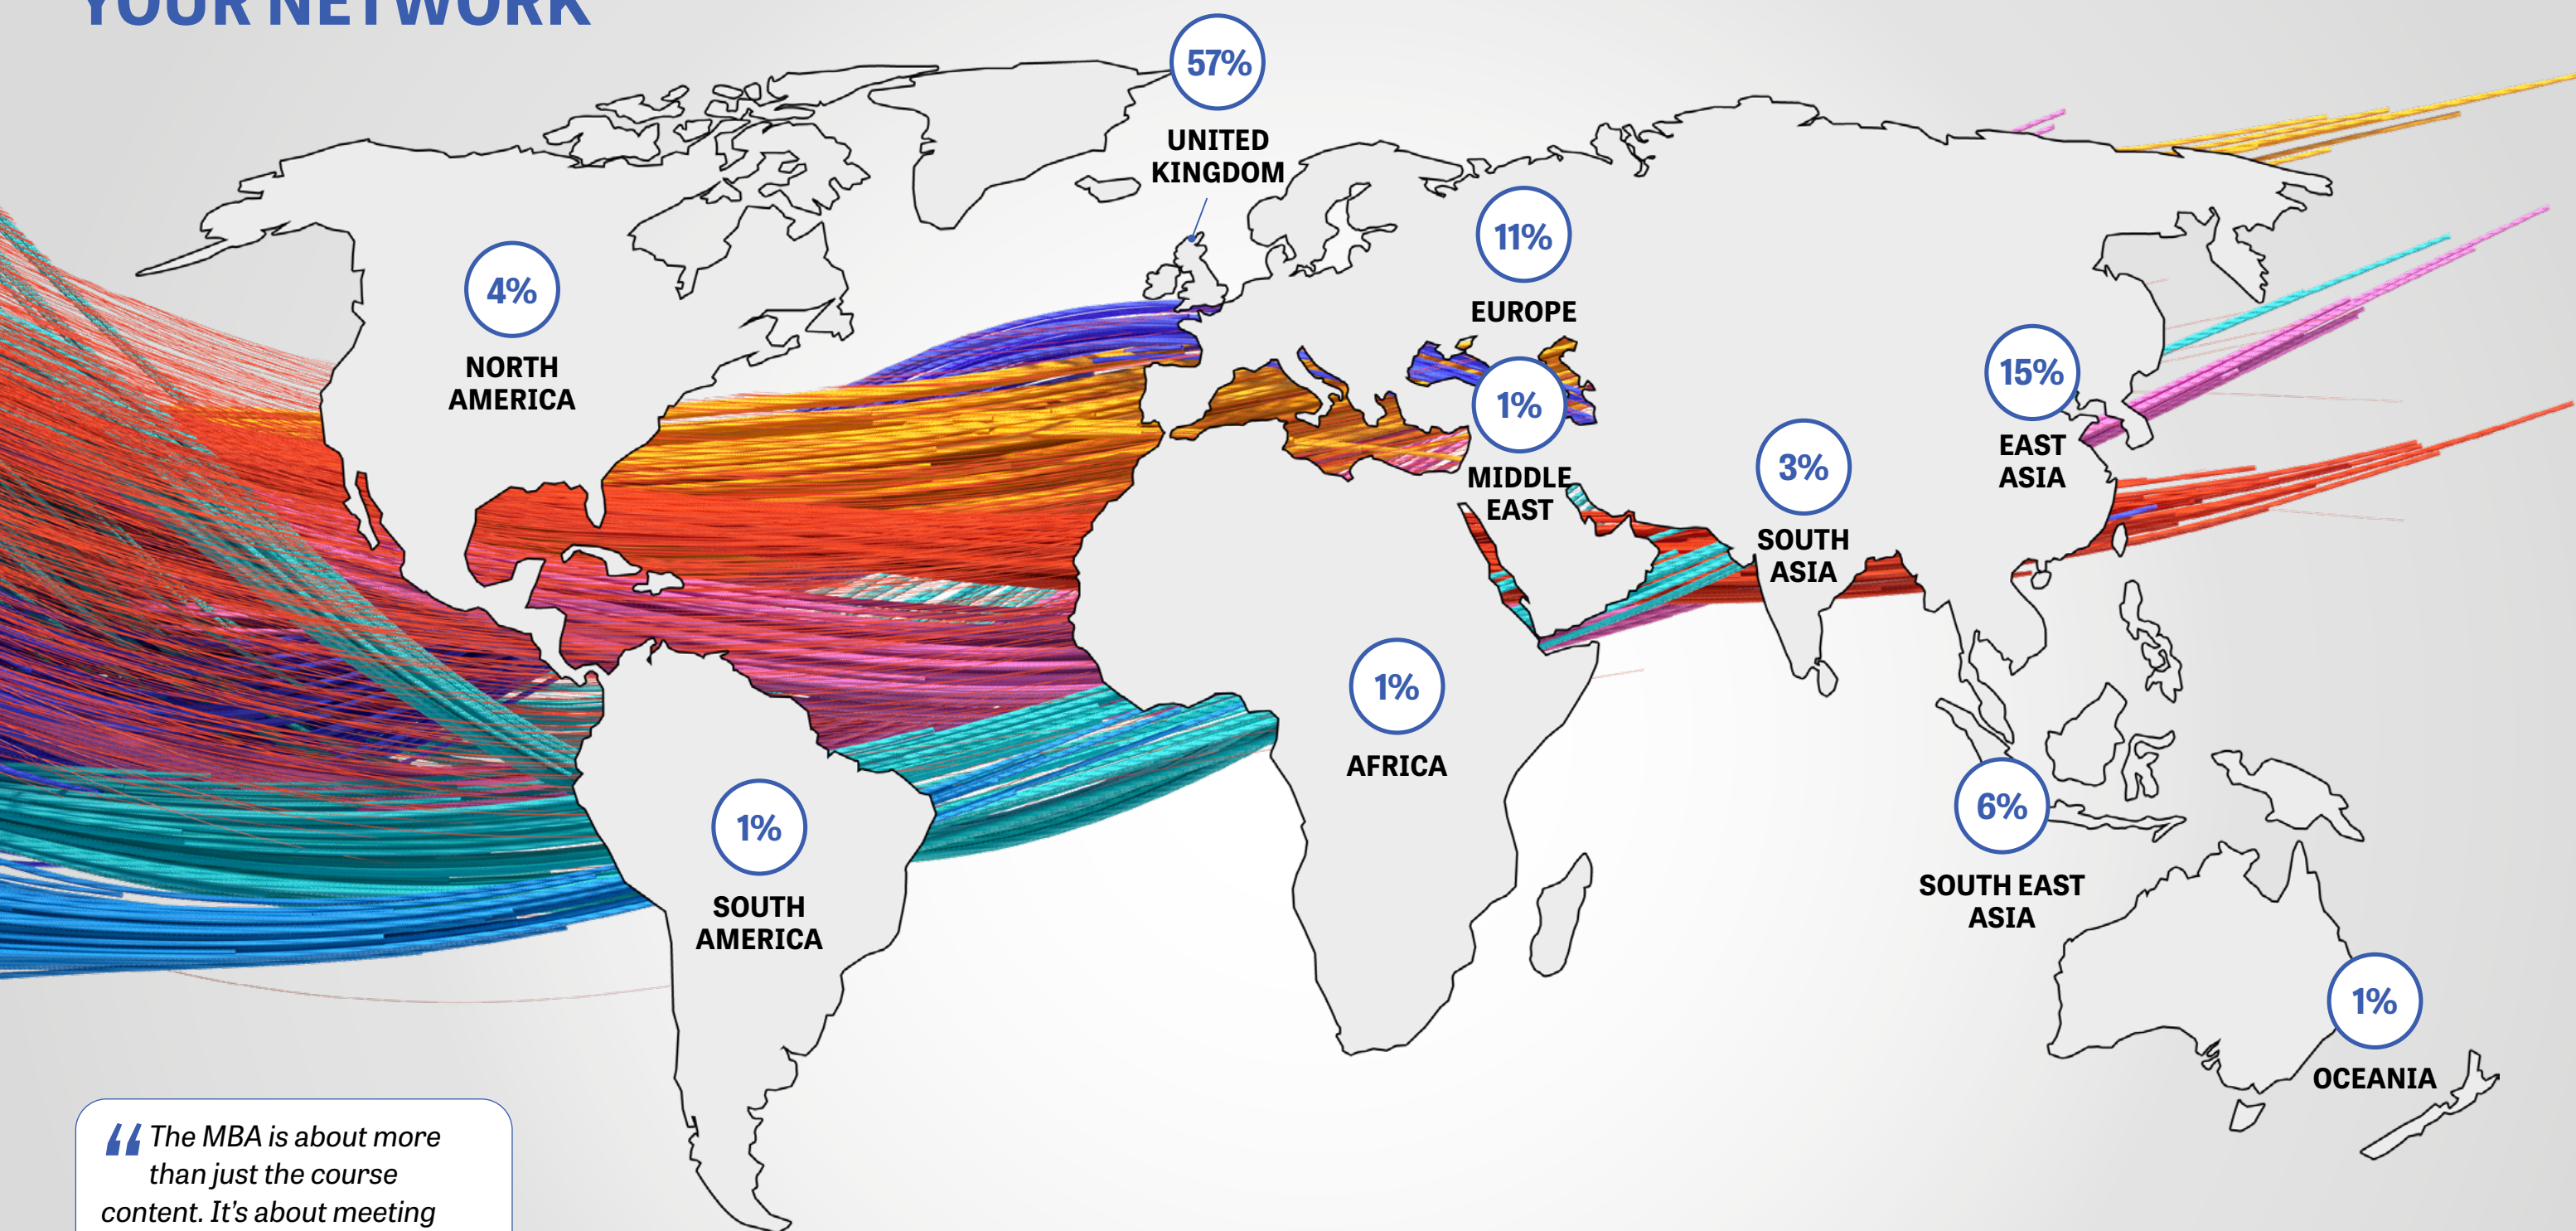

I've changed significantly, both in character and knowledge. The MBA requires a growth mindset and strong teamwork spirit, as you collaborate with people from different nationalities and backgrounds. If you're ready for the challenges ahead, it will make you a better person in every way. Having this mindset helps you accept others with open hands, struggle less, and learn more. For those prepared to grow, this is truly the place to be.

“IT’S MORE THAN JUST A DEGREE – IT’S BEEN A LIFE-CHANGING EXPERIENCE IN A CITY I’VE GROWN TO LOVE.

The Bath MBA has been a transformative journey for me. The Multi-Project Suite was a key attraction, offering a blend of consulting, change management, and entrepreneurship experiences. It amalgamates activities you encounter in your day-to-day work life, giving you client-facing exposure and practical skills that add immense value.

One of my biggest takeaways was learning to work in diverse teams. The MBA programme brought together people from vastly different backgrounds, allowing us to approach tasks from multiple perspectives. This experience, coupled with the range of modules we studied, gave me a holistic view of the business world.

Personally and professionally, I’ve grown tremendously. The MBA has given me the confidence to engage in high-level business discussions and the ability to learn quickly. It’s improved my public speaking skills and taught me about different management and leadership styles. More importantly, I’ve made lifelong friends and valuable professional connections.

My advice to anyone considering or starting an MBA? Keep an open mind, learn from your peers, and embrace the journey. The memories and experiences you gain are invaluable. The MBA at Bath has been more than just a degree – it’s been a life-changing experience in a city I’ve grown to love.

There may be occasions where, due to unforeseen or unavoidable circumstances, it becomes necessary to make significant changes to a course or to withdraw it or part of it, for example a particular unit/module. Such action could become necessary if for example the following were to occur:

- ▶ a key member of staff leaves the University and we are unable to find a suitable replacement (e.g. with the requisite academic knowledge/experience)
- ▶ a professional body or regulator/accreditor requires changes to be made to a course or withdraws their accreditation of a course
- ▶ changes have to be made to reflect legislative changes/requirements
- ▶ changes have to be made to reflect changes in standards set by relevant regulators and/or in keeping with best practice or developments related to the particular discipline/subject area
- ▶ student feedback clearly indicates that immediate changes need to be made to a course or unit
- ▶ unexpected low recruitment to a course or unit/module means it is simply no longer viable or practical to run it.
